Jamme CNC

Status: Under reconstruction

Jamme is the yellow CNC situated to the right of the 3D-printer cabinet. It's condition is unknown, but it has never really worked.

Software:

- LinuxCNC

Hardware:

- 2x ODrive BLDC Drivers
- 3x 270KV BLDC Motors
- MESA Driver board(??)

Maintainance log:

2020-2021: Odrives ordered

October 2022: Tor Brodtkorb and Tord Natlandsmyr started working on getting it operational again
