

How to Build a Robotkrig-robot

In order to successfully participate in the competition, **you need to be able to move** and maybe deal some damage to other robots. However, a lot of unexpected things can go wrong.

Unofficial Recommendations and Guidelines

Recommendations from people who have built a working robot.

Omega Verksted accepts no liability for loss of funds, limbs, life, sleep, dignity or cognitive faculties resulting from the utilization or non-utilization of these recommendations.

Hackheim

Recommendations from the multi-year participants and several-times competition winners from the Trondheim hackerspace [Hackheim](#).
